Accelerated Death Benefit Feature***

Automatically included (not available in CA). Provides access to an advance payment of up to 50% of the death benefit if the insured is diagnosed by a physician to have a terminal illness as defined in the policy.

Social Security Billing Option

Premiums can be scheduled to be withdrawn to correspond with Social Security Benefit payment dates. Timing premium withdrawal with the deposit of your Social Security Benefits will help ensure premiums are collected when due. You will no longer have to worry about when premium funds will be withdrawn.

Optional Rider

Accidental Death Benefit Rider

This optional rider pays an additional benefit in the event of an accidental death. The amount of coverage will be equal to the full face amount of the base policy. Available issue ages 40-74. Rider expires at age 75.

*Death benefit payments are reduced by outstanding policy loans (including accrued interest) and unpaid premium due. Loans against the policy accrue interest and may cause the policy to lapse; loans may not be available in the first year.

**Premiums paid more often than annually will cost more than paying them one time per year.

***Receipt of accelerated death benefits may affect eligibility for public assistance programs and may be taxable. This benefit is added at no additional cost, but the benefit is discounted because it's an early payment and an administrative fee of up to \$150 is deducted. State variations apply.
